

# JEANETTE RIVERA

Web Developer

914-621-1668 | jeanetteriveradev@gmail.com | www.jeanetterivera.com  
www.linkedin.com/in/jeanette-rivera | www.github.com/JeanRivera23

Developer with over five years of agency experience and demonstrated expertise managing high-volume projects. Dedicated to creating and maintaining user-friendly sites, applications and features.

- Designed and developed responsive web applications using HTML, CSS, JavaScript, Ruby, Ruby on Rails and SQL.
- Integrated data from various APIs utilizing multiple AJAX calls.
- Created an SQL database for a meal planning web application.
- Deployed applications onto Heroku.
- Successfully managed a team of three and oversaw the scheduling, production and release of multiple high-volume marketing deliverables.
- Implemented high-standard quality control throughout production work flow process, upholding client brand guidelines and industry standards.
- Assisted in content management and updating of client website.
- Created, tested and delivered animated banner ads and performed regular updates to landing pages and emails.
- Evaluated project specifications, flagged issues and provided solutions to the satisfaction of department heads and clients.
