SUMMARY

Entry-level developer with over five years of agency production experience and demonstrated expertise managing multiple high-volume projects. Dedicated to creating well designed and user-friendly sites, applications and features.

PROJECTS

Meal123 Ruby on Rails, SQL, Devise Authentication, HTML & CSS
https://secret-sierra-29085.herokuapp.com
- Responsive meal planning web application.

Brainfloss Ruby on Rails, SQL, JavaScript, HTML & CSS
https://brainfloss.herokuapp.com
- Whimsical facts and trivia generating application that draws its content from multiple APIs.

Green Thumb Nursery Ruby, Sinatra, JavaScript, HTML & CSS
https://greenthumb-sinatra-site.herokuapp.com
- Site that showcases design sensibilities and proficiency with DOM manipulation and routing.

WORK EXPERIENCE

Wilson RMS

Studio Supervisor   August 2016 - August 2017
- Successfully managed a 3 person team and oversaw the scheduling, production and release of multiple high-volume marketing projects.
- Worked directly with Project Managers and Account Supervisors to develop an efficiency-enhancing production work flow that enabled the agency to meet the demands of a two-fold increase in business.
- Evaluated project specifications, identifying and solving for any issues prior to project kick-off.

Production Artist   October 2011 - August 2016
- Met production milestones and implemented high-standard quality control throughout production work flow process.
- Upheld client brand guidelines and industry standards.
- Produced print-ready mechanicals and comps.
- Created, tested and delivered standards compliant animated banner ads.
- Performed regular updates to landing pages, emails and client website.
